

Latex Grip Gloves - User Manual

Thank you for purchasing a Blue Spot Tools product, you can find further information on our range at www.BlueSpot.uk.com. Please ensure that you are using the product correctly and that all guidance and cautions are followed in accordance with the instructions. Please retain these instructions for future reference.

Safe use

Please make sure that you read these instructions carefully in order to avoid injury when using the latex grip gloves. Follow all health and safety rules and regulations. If in doubt and available please contact a more knowledgeable source.

DO NOT use if damaged.

1. Before use always check the gloves for any damage. If any damage is found (abrasion, cut tear etc.) do not use as this could cause damage to injury and make the gloves ineffective.
2. If working near moving machine parts the gloves should not be worn as there is a risk of them becoming caught.
3. **NEVER** subject the gloves to serrated or high speed blades.
4. **NEVER** use these gloves with/near chemicals.
5. **DO NOT** use the gloves with/near a naked flame.

The BlueSpot Latex Grip Gloves have been designed to protect hands against mechanical risks in accordance with the PPE regulation 2016/425. The gloves are compliant with the PPE directive as well as the applicable technical European Standards.

Protection from mechanical risk

Protection from mechanical risk

2 Abrasion resistance (0-4)

1 Blade cut resistance (0-5)

4 Tear resistance (0-4)

2 Puncture resistance (0-4)

X Cut resistance method (ISO 13997) (A-F)*

(X – Not tested)

The levels of performance have been tested on the palm of the glove. These levels of performance are obtained from tests done according to conditions defined by applicable standards.

The levels of performance are only valid for new gloves that have not been washed or regenerated.

Allergies

WARNING: These gloves are manufactured with a latex coating. They are not suitable for people with allergic reactions to latex.

Cleaning & Maintenance

If needed the gloves can be cleaned with lukewarm water using soap. **NEVER** use bleach to clean the gloves.

ALWAYS allow the gloves to fully dry before being stored.

Storage

ALWAYS store the gloves in a cool dry area that is out of reach from children.

Store the gloves away from direct sunlight.
