Thank you for purchasing a Blue Spot Tools product, you can find further information on our range at www.BlueSpot.uk.com. Please ensure that you are using the product correctly and that all guidance and cautions are followed in accordance with the instructions. Please retain these instructions for future reference.

SAFE USE

Please make sure that you read these instructions carefully in order to avoid injury when using the worklight. Follow all health and safety rules and regulations. If in doubt and available please contact a more knowledgeable source.

DO NOT use if damaged.

- **BE AWARE** this product is not waterproof.
- **BE AWARE** it is not possible to change the light source.
- **ALWAYS** check the light for any damage before use. Check for damage to the cable, lens or light casing. If light is damaged do not use as this may cause damage to property or cause injury.
- **ALWAYS** inspect the USB cable for wear or damage before using the light. Ensure all the connections are secure.
- **ALWAYS** dress appropriately and wear the correct PPE equipment if required.
- **ALWAYS** ensure the light is disconnected from the power source when not in use.
- **ALWAYS** ensure the light has been turned off and disconnected from the power supply before performing any maintenance or storing.
- Allow the light to cool down fully before cleaning or performing any maintenance.
- Before storing the light ensure that it has cooled down completely and is dry. Store the light in a cool dry area that is out of reach of children.
- Position the light where it is not likely to be knocked or cause a hazard while working.
- Maintain the lamp in good and clean condition for best and safest performance.
- Keep the work area clean and uncluttered.
- Maintain correct balance and footing. Ensure the floor is not slippery and wear non-slip shoes.
- Keep children and unauthorised persons away from the work area.
- **DO NOT** use the light if the glass shield on the front has been broken or has been removed.

SAFE USE

- **DO NOT** use the light in damp or wet locations.
- **DO NOT** allow children to use the light.
- **NEVER** use the light near flammable, combustible or explosive liquids, solids, gases or equipment
- **NEVER** proceed to use the light if you have found damage to the USB cable.
- **NEVER** direct the light into yours, another person's, or animal's eyes. This could cause eye damage.

These instructions are intended as a guide only.

INTRODUCTION

The Electralight 3 Watt COB & LED Rechargeable Worklight (160 Lumens) is ideal for professional users. The main COB LED work light operates at 160 lumens and the top of the torch body also features an LED 50 lumen torch. The magnetic base is ideal for securing to metallic surfaces and there is also a hanging hook on the rear of the worklight allowing for hands-free use. The light is also adjustable through 180° for even greater hands-free usability. Complete with a USB charging lead and a 1200mAh rechargeable lithium battery.

CE RoHS

SPECIFICATIONS

Model	65318
Output	160 lumens
Max Run Time	2.5 hours
Charging Time	3 hours
Power Source	3.7V 1200mAh rechargeable lithium battery
Input Voltage	5V
Power	3W
Temperature Range	-20° - 50°C
Dimension	155 x 40 x 30mm
Weight	131.8g

OPERATION

ALWAYS check the light for any damage before use. Check for damage to the cable, lens or light casing. If light is damaged do not use as this may cause damage to property or cause injury.

1. Before using the lamp for the first time the battery must be fully charged.
2. If you would like to use the light hands free you can secure the light to a metallic surface using the magnetic base.
3. Set the light into the desired angle using the 180° adjustable base.
4. To turn the light on use the button on the front of the light.
5. To turn the light off press the button until the light is no longer on.

CHARGING

The Electralight 3 Watt COB & LED Rechargeable Worklight (160 Lumens) includes a rechargeable battery. To recharge the battery follow the instructions below -

1. Connect the USB wire to the back of the light via the charging port.
2. Ensure the USB wire is securely connected to the light
3. Connect the USB wire to a power supply. There will be a green light that lights up when charging.
4. It should take approximately 3 hours for the light to fully charge.
5. When the light is charged carefully disconnect the USB lead from the power supply and also from the light.

DO NOT leave the battery without charge for an extended period as this risks damaging the battery.

CLEANING & MAINTENANCE

Allow the light to cool down fully before cleaning or performing any maintenance.

Clean the light case externally (not the glass/lens) with a moist cloth.

NEVER use solvents or abrasives to clean the light.

If necessary clean the glass/lens with a soft cloth.

STORAGE

ALWAYS ensure the light is disconnected from the power source when not in use.

Before storing ensure the light has cooled down completely and is dry. Store the light in a cool dry area that is out of reach of children.

DISPOSAL

Do not dispose electrical products together with household waste. Please use the correct recycling facilities. If unsure of correct recycling, ask your local authority or retailer for advice.

- Contact your local waste disposal authority for information on how to correctly dispose of tools.

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

ENVIRONMENTAL PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.
